PROFESSIONAL SUMMARY

Software Engineer with 2+ years of experience building responsive, scalable web applications with modern frontend frameworks and cross-functional collaboration. Proficient in Next.js, React, Redux, Tailwind CSS, and Material UI, with additional strengths in Azure DevOps, Python scripting, NodeJS and agile project coordination. Adept at delivering B2B and B2C solutions under tight timelines while maintaining code quality and performance.

STRENGTHS AND EXPERTISE

- **Frontend:** Next.js, React, Redux, Context API, Tailwind CSS, Material UI, Chart.js, Recharts
- **DevOps & Tools:** Azure DevOps, Git, Postman, CI/CD, Azure Maps
- **APIs & Backend:** NodeJS, REST APIs, JSON, Basic Schema Design
- **Scripting:** Python, Prompt Engineering
- **Testing:** JEST, React Testing Library, Unit Testing
- **Project & Team:** Agile/Scrum, Code Reviews, Mentoring, Requirement Syncs, UI/UX Design

---

PROFESSIONAL EXPERIENCE

Terawe Technologies   **July 2023 - Present**
Software Engineer 1

Led cross-functional teams in delivering scalable web apps using Next.js, Redux, Tailwind CSS, and Azure DevOps—owning end-to-end UI delivery and driving seamless collaboration across engineering, design, and product teams.

Accomplishments:

- Delivered 8+ client-facing projects: 5 B2B, 1 B2C, and 2 demo tools with complete frontend ownership and delivery responsibility.
- Built and maintained interactive dashboards and components using Next.js, Tailwind CSS, and Recharts.
- Led frontend development for an AI chatbot interface (document parsing, feedback, charts) delivered within 6 weeks.
- Integrated services like Stripe and Zoho CRM during final development phases with close coordination from senior leadership.
- Contributed to Azure-integrated enterprise tools by implementing Azure Maps and optimizing architecture for performance and cost.
- Handled project coordination duties: leading scrums, mentoring developers, syncing with stakeholders, and tracking requirements.
- Supported deployment, testing, and pipeline workflows using Azure DevOps and Git-based version control.

Project Highlights:

- AI Chatbot Interface - Developed user interface with chat history, feedback submission, PDF reader, and dynamic charting features using React and Tailwind.
- B2C Admin Portal - Built a responsive platform with dashboards, payment gateway (Stripe) integration, and reporting modules for live users.

- B2B Azure Tools - Contributed to multiple enterprise dashboards using Azure Maps, focusing on performance tuning and modular frontend structure.

Achievements:
- Promoted to Software Engineer 1 within the first year based on delivery consistency and team contributions.
- Recognized with performance bonuses and global award for driving cross-functional collaboration.
- Actively led sprints, mentored juniors, and supported fast-paced product cycles end-to-end.

EDUCATION

AISAT 2019-23
Bachelors in Computer Science and Technology **CGPA : 8.11**

SNDP Udeyamperoor 2017-19
12th Standard **Percentage : 87.75%**

HFCHS Mumbai
10th Standard **Percentage : 89.20%**

CERTIFICATION

Microsoft
 DP-203: Data Engineering on Microsoft Azure
